RARE LAMBOURGHINI 400GT FOR SALE **ONE BIG TIN CAN for sale to fund 1 million small cans**

It's well documented that entrepreneurs with an overwhelming passion will make every sacrifice possible to set up and build their new business. From working 20hr days to even selling their most treasured possessions...

HOTCAN boss Mark Taylor; a former Formula Ford racing driver in his youth (racing against David Coulthard), the youngest qualifying helicopter pilot in 1980, then a steel foundry owner and current oil industry player, has put his body and soul, life and limb into his new venture and is now selling his beloved company car, a rare right hand drive 1968 Lamborghini 400GT to fund the expansion of the business - this is certainly a man on a mission!

Mark Taylor said: "Having watched the HOTCAN product for the past 20 years I finally got my hands on it last year and I now plans to make it into one of the biggest brands in the world+
